FORMER CITY INDIAN

GERMAN FANZINE IN ENGLISH GERMAN FANZINE IN ENGLISH

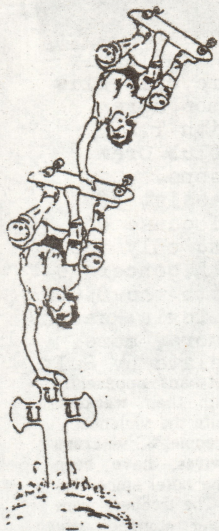

EDIZIONE: 2000

PAY NOTHING - IT'S FREE - PAY NOTHING - IT'S FREE

Well, here's the new issue of our fanzine. We have decided to change the name "CITY INDIAN" into "GERMAN YOUTH REPORT". We think that this name suits our fanzine better than the old one. I hope this issue has as much success as the last one had. Relatively few people have written, though. Thanks to all who have answered. We would appreciate it if a closer contact arose.

Ok, Skunk, sit down and write us - write or die!!! We're interested in everything - scene reports, band information, or just about yourself. But please don't be offended because of the skunk.

Our address is: GYR c/o Stefan&Claudia, LINDAUERSTR!
45/896o Kempten/W-Germany

Who are we? Some of you have already read it in our last issues. For the others I'll tell once again. You ought to now who we are. First there's Micky, the kind girl who translates all that stuff you read here. Many thanks to her. Apart from translating she goes to school. Furthermore there is Claudia. She helps me with the mail and together we make this fanzine and one in german. The German fanzine has 24 pages and deals mainly with US- and European bands, but also with politics. We would be pleased to send you an issue (send S.A.S.E.)

And finally I want to introduce myself. My name is Stefan, I'm 20years old and since April, 1st I'll be at the army as a medical orderly. Besides these two fanzines I organize concerts in our town together with my friend Pit. In future we want to organize some tours in Germany. In January I have been on a tour through Germany with the Toy Dolls and Rotting Carcass. Pit has also organized some tours for bands already. We want to do that completely on a non profit basis and with a lot of fun. If you'll come to Germany tell us. Besides Claudia, Pit and I play together with two other kids in a band. Well, that was the information about ourselves. Now read on and enjoy yourself.

TOXIC REASONS

Live in the Star Club / Kempten - 26th and 27th May

Before this concert I really haven't heard much about this group, but I went into concert, because one day before the "MINIMIS" were boring me. Another thing was that not many US-bands come to Kempten.

The two bands before Toxic Reasons were the EWINGS from Kempten and KGB from Tübingen. The EWINGS pleased by their good sound and their homeadvantage, but the crowd were economicasl by applause. The same by KGB, but KGB hasn't good enough mixed the sound.

After a longer break finally TOXIC REASONS. From start there was a good feeling - the audience as still something new in germany - Slamdance. Up to there I had only theoretic about Slam Dance, which I remembered by the first flys. T.R. have made a great show for two hours(!). And in fact that the Star Club is a very small room it was terribly hot.

EWINGS

NESSLERWANG, West Germany (AP) — Police fired water cannons and tear gas Saturday at rioters who hurled rocks, firecrackers, paint and eggs at a hotel where veterans of the Nazi SS were holding a reunion.

A thousand police officers in full riot gear ringed the Hotel Krone where the former SS troops were meeting and fought street battles with up to 400 demonstrators for more than half an hour in this Bavarian Alpine resort.

At least eight people, four police and four demonstrators, were hurt, the Bavarian Interior Ministry spokesman, Joachim Schweinich, said. There were 24

Protesters failed to reach the hotel, but broke all its windows with rocks and beer bottles and splattered its facade with egg yolks and paint. They threw the same missiles at police and trashed the hotel square, ripping up pavement stones and picket fences and smashing shop windows.

The violence overshadowed a peaceful anti-Nazi demonstration at a nearby ski-racing field. About 5,000 people came in buses from all over West Germany to attend the rally sponsored by the German Trade Union Federation and other groups. They outnumbered the populace of Nesselwang, which is about 3,000.

The second concert was a little bit silently cause there where only kids from Kempten, but the atmosphere was great. Later I was with T.R., KGB, Ewings and the Star Club Crew on a party for Toxic Reasons. Claudia talks with the bassist of T.R. very intensiv, but I cause of my bad english, understand only the half. But for me this both concert's were the best of live (with the D.O.A gig) We are all happy if Toxic Reasons comes back and shaws us more, more, Stefan. translate by Ralf

The SS veterans apparently continued with their weekend meeting despite the violence.

About 600 people, SS veterans and their wives, have been closeted in the hotel since Friday evening. The troopers were

The fighting stopped after demonstrators from the rally walked between police and rioters, pleading through megaphones for violence to end.

Fighting later broke out between demonstrators and about 20 neo-Nazis, and police with clubs stormed the crowd to break it up.

round the world. Today, it is with \$28.8 billion in assets and 9,600 employees

from the 1st and 12th Tank Divisions of the Waffen SS, nicknamed the "Adolf Hitler Bodyguards" and "Hitler Youth." The SS contained Hitler's most dedicated followers.

Police said the hotel owner was also a former member of the Waffen SS, the combat arm of the Nazi SS.

The few SS veterans who ventured out of the hotel before the violence began defended their reunion. Most said they had volunteered for the SS.

George Lenz, 68, a former lieutenant, said most of the veterans present had fought against the Russians in World War II.

"I am very proud to have been a member of the Leibstandarte (Body Guard), grateful to have taken part in such wonderful event.

"These are all lies, we never carried out any massacres. We made one mistake, we should have been as cruel as people claim we were."

This was an article of the SS-meeting in Nesselwang. The town is 30 miles remove of Kempten. All protests have not helped. The nazi's can do, what they want. Today, too.

Fight against all fascists. Destroy the Nazi's. Destroy the Klan.

Thanx for the article to RED TABLE PRINTS.

The WUT

Some weeks ago I've heard a really good band on the "MORE FUN SAMPLER"- an unknown band called "WUT"(Anger) The band comes from Langenfeld, near Düsseldorf. I like their music not only because of the texts. I think the way the members of the band are living is more important than anything else. Three of them are vegetarians, 'cause they dislike the way of cattling and that the "industry farmers" only want to make much and fast money by exploiting animals and the earth, their fields. This kind of farming has nothing to do with normal agriculture(cattling), but more with cruelty and being keen on money.

They think that "Straight Edge" wouldn't be so important necessary for them, if Punk hadn't so much to do with drinking, alcohol and drugs etc, and because of this bloody alcohol not so much with hooliganism.

But the most Punk still drink to much and make shit, so WUT is sure that S.E. is a positive thing - a new kind of life-style in this bloody world. This is their reason why they only drink sometimes and then not to much. Other drugs are tabu except for Pot. They think that "S.E." has only to do with drugs and alcohol, but nothing with sex (like "Minor Threat") They are against all kinds of laws, controls and manipulations, but they know that by the ignorance all established systems, because then their influence can't get so great and get you under pressure. But it's mad to think that

you will win. On the other side you have to fight against all established systems, because then their influence can't get so great and get you under pressure. But it's mad to think that you will win over night (even if it is possible), because there won't be a quality anarchy - only the law of the strongest will be accepted. If you want to realize anarchy, you've to change the social consciousness of people, but if this will be reached in the future, you will have died long times ago. We only could try to make something in our established systems at the moment, so that people together; give them chances to be creative; be active; or simple to help them to think about what's wrong on this planet, in their bloody lives.

Concerts are the start of this process, autonome Youth Clubs a next step and last but not least a net for fanzines will be great. There are many things on which someone could get active. Our favourite dream is to find many bands and a studio to found a really independent label. But there are great problems, e.g. the money or the connections, because we aren't so stupid to beg by xxx or others.

Schwarz-totes Banner

And now the members of "WUT":

HOLGER plays bass and makes his civilduty in a hospital for "mad" people - and there he has a lot to do with "Hardcores".

Jörg plays drums and makes his civilduty, too.

Shetty (vocals) tries to study on university in his nearer future - maybe.

Oliver (guitar) tries to get a civilduty.

If you want to write them, 'cause they are very interessted to hear about sceanes of every town, write to: Oliver Galbierz/Zum Hucklenbruch 4/4018 Langenfeld/ W-Germany
